Grand Opening of Chute Lake Elementary

Media and interested members of the public are invited to the official grand opening of Chute Lake Elementary, which welcomed students beginning in September 2009. The facility features environmentally-friendly technologies such as solar panels, energy efficient lighting and geothermal heating and cooling.

“For many of us, the new technology has pushed us to rethink how we can best tap into how kids today prefer to learn,” says Bruce McKay, Principal. “We have made strides and look forward to seeing just how far we can go. The first year has been an exciting and rewarding journey. Our staff, parents and students have all worked very hard to make the first year a great success.”
