Memorandum

Date: January 16, 2019
To: Board of Education
From: Eileen Sadlowski, Secretary-Treasurer/CFO
Action Item: **Sports Fields for George Elliot Secondary and H.S. Grenda Middle Schools**

1.0 ISSUE STATEMENT

In order to have the new George Elliot Secondary/H.S. Grenda Middle sports fields ready for September 2019, development planning has begun. Once the fields are completed, construction can begin on the new H.S. Grenda Middle School.

2.0 RELEVANT BOARD MOTION/DIRECTION

None.

3.0 BACKGROUND

A meeting to begin planning for the sports fields located beside George Elliot Secondary School and the new H.S. Grenda Middle School was held December 13, 2018. Representatives from CHP Architects, School District Administration, George Elliot Secondary Administration, George Elliot Phys Ed Department and School District Grounds personnel were in attendance. School Personnel shared their wish list regarding the field developments in order to maximize learning opportunities for students at George Elliot Secondary and the new H.S. Grenda Middle School. A preferred option for field placement has been determined and is included in Appendix A. The field design includes one traditional school field and a second field surrounded by a Track and Field track.

4.0 POINTS FOR CONSIDERATION

- 4.1 Field development is scheduled to begin in February, 2019 in order to have the fields prepared for September, 2019.
- 4.2 Development prior to April is necessary in order to perform work that will not disrupt environmental concerns regarding nesting schedules for birds or hibernation schedules for turtles.
- 4.3 The desired design has been determined based on proximity to the planned pathway as well as the existing Clubhouse which can potentially be used for student change rooms/washrooms.
- 4.4 Placement of the fields allows for more coordinated access as well as maximum flexibility to the areas identified for future development.
- 4.5 The proposed running track would be beneficial for the school as well as the Lake Country community as there is none existing in the community at this time. This could be used for Track and Field events as well as a Community Walking Track.
- 4.6 Fields would have a North/South orientation which is preferred for all activities.

5.0 SECRETARY-TREASURER/CFO'S COMMENTS

The proposed design and placement of the fields offers the maximum benefit to the school as well as provides for an excellent resource for the Community. Preliminary work to prepare the site will begin in February, 2019

6.0 STAFF RECOMMENDATIONS:

THAT: The Board approve the recommended Field Design Plan, including a track and field oval, for the sports fields located beside George Elliot Secondary School and the new H.S. Grenda Middle School.

AND THAT: Staff continue discussions with the District of Lake Country regarding joint use opportunities and future field development beside George Elliot Secondary School and the new H.S. Grenda Middle School.

"Culture is our voice"

"Each year, the students in our Academy of Indigenous Studies create shirt designs for their leadership class. Together, they choose a phrase for the back of their shirts. Last year, the chosen phrase was 'culture is our voice.' The importance of culture is evident in this building. This has been made possible by working in partnership with Westbank First Nation and our district Aboriginal Education team. We have also focussed on weaving the First Peoples Principles of Learning throughout all classes, encouraging teachers and students to incorporate learning that happens on the land, and connecting with local Elders who lead us in ceremony and share traditional knowledge, stories and songs. Students can drum whenever they wish. Smudging is common and students are able to smudge when they need strength and healing.

The culture of our school did not happen by accident – it is the result of the hard work and commitment of many staff and community members as well as our students. Changing culture in your school means having the courage to make decisions that support this change, and it is both simple and complex. For example, when we were offering English First Peoples' courses for the first time, we had only a handful of students enrolled. When making decisions about the timetable some might say 'sorry, this just isn't feasible within budget constraints.' But we chose to offer the courses – and the number of students enrolled in them has more than doubled in two years.

As leaders, we need to take positive risks that support our vision and goals. I believe that my job as a leader is to water the seeds planted by those who believe in this work by putting support, money and resources where they need to go so that we can continue on this journey."

Raquel Steen, Principal of Mount Boucherie Secondary School

Reflecting on what's worked

"In 2008/09, our district's six-year completion rate for Aboriginal students was 55%. In 2017/18, we reached 80%. That's a significant change. And while there is still much work to do, that improvement speaks to the commitment of the community, staff, families and students. My advice for others?

1. It's all about relationships and listening to the needs of your local Indigenous communities. Our vision for education was co-created through an Aboriginal Education Enhancement Agreement developed through a joint effort of the leadership of the chief and council and the Aboriginal Education Council. We see this very much as a living document that will and should continue to evolve.
2. Culture and tradition must be reflected in the daily life of our school community. Our schools need to be welcoming places for parents, families and Elders. Our gathering rooms allow for these connections. →

3. Our Aboriginal Student Advocates support students through home-school-community connections. That's contributed to student engagement and success.
4. Data is important. We track students through our Aboriginal Information Management System, which references 18 of the goals of our Enhancement Agreement to record the service we provide Aboriginal students and make sure we are meeting their holistic needs.
5. Public celebrations. Last year, over 200 Aboriginal students graduated and we held a celebration in the community with traditional practices. This was co-delivered by the Indigenous community and staff and was an outstanding public celebration of success.
6. Connections with local communities are powerful. This year, our teacher leaders and the Westbank First Nation put on a three-day Indigenous education summit that brought together 250 of our teachers and senior leaders to participate and learn more about traditional culture. Knowledge Keepers generously shared their traditions and approach to education and educators were invited to participate in traditional practices, including a water ceremony."

Kevin Kaardal, Superintendent of Schools, School District No. 23 (Central Okanagan)

Resilience and strength

"The world needs an Indigenous worldview now more than ever. We need the stories of resilience and strength and the gifts of the Indigenous people who have lived on this land for thousands of years. Every single person – Aboriginal or non-Aboriginal – can trace their family history back to a village experience. For Aboriginal people, that village experience is not as far back in history as it might be for others. And that village experience offers important gifts about how we connect and care for each other — gifts that our planet needs now more than ever."

Denise Augustine, Director of Aboriginal Education and Learner Engagement, School District No. 79 (Cowichan Valley)

An ideal school system

"My ideal school system?

- There would be no need for alternate schools because every school would have a diversity of environments to honour the strengths of its students.
- Learning would happen as much outside the walls as inside. It would acknowledge that learning is powerful when it happens in community with students connecting with people and the land around them.
- Community flows through the building.
- Students would see school as not just a series of hoops to jump through to get somewhere else they would rather be. They would be inspired to continue learning throughout their lives.

I see this emerging in small pockets. Every system is designed to perpetuate itself, and it's certainly challenging to shift a large complex education system. But we are seeing pockets of activity and I hope that momentum will continue until a better and more equitable system is normalized.

There are amazing initiatives underway with wonderful results for learners. We as educators are learners too, and I believe we are most effective as educators when we see ourselves as learners first. That's when we are more open to possibilities to make shifts, to make the system work better for our kids and to have more joy in the work we do."
