To the Board of Education at Central Okanagan Public Schools,

Like many, I have concerns about the safety of indoor air quality during what seems to be consistently worsening conditions. If you are able to point me to resources so I can understand better what exactly is being done to ensure the safety and accessibility of students and employees in our schools I would greatly appreciate it.

- 1) Do you have a wildfire smoke response plan in place?
- 2) Do you have a plan in place for the upcoming, now (likely) annual, tripledemic? (flu + RSV + COVID)

As an Auntie with 5 Nieces and Nephews enrolled in, along with multiple friends and family members who work within School District 23, I would like to ensure there are plans in place to keep everyone safe, healthy and in accessible classes this year.

I look forward to your response.

Thank you for your time,

Angela Holmes
