645R – VIDEO SURVEILLANCE CLOSED CIRCUIT TELEVISION (CCTV) (REGULATIONS)

1. Use of Cameras

- 1.1 Before video surveillance is introduced at a new site, a report must be submitted to the Superintendent of Schools/CEO, providing reasons why surveillance is being considered. The report will detail (if applicable) any specific incidents of property loss, safety or security breaches justifying the implementation of surveillance. The report will identify any less intrusive alternatives that have been considered and why they would not be an adequate alternative to surveillance. In addition, the report must set out the methods that will be used to minimize the privacy impact of the surveillance initiative. The report must indicate that consultation with the school community has taken place and that the Parent Advisory Council has approved the installation plan.
- 1.2 If a surveillance camera is to be used within a school facility or on school land, the Board will provide notice of its plans to the applicable Parent Advisory Council. In accordance with and as required under Section 74.01 of the School Act, the Board must obtain the approval of the Parent Advisory Council before proceeding with implementation of the surveillance system.
- 1.3 Where the Board deems it appropriate, the Board may undertake consultations with other affected individuals regarding the implementation of surveillance, such as students, parents, staff or members of the community.
- 1.4 Signs must be clearly written and prominently displayed to notify the public of video surveillance. Notices must include contact information for the designated staff assigned to answer questions about the surveillance system. Signs indicating that video surveillance is in the area shall not be posted in locations where video surveillance is not operational.
- 1.5 The Superintendent of Schools/CEO or designate must authorize any exceptions to 1.4, (e.g. a time limited specific investigation into criminal conduct or identifying specific safety or security issues). Such authorization will only occur if covert surveillance is essential to the investigation and this outweighs the privacy interests of those likely to be observed and after a detailed, comprehensive assessment of alternative options has occurred. Covert surveillance will not be authorized on an ongoing basis.

- 1.6 Video surveillance is not to be used in locations where appropriate confidential or private activities/functions are routinely carried out (e.g. washrooms, private conference/meeting rooms). Any exception to this must be authorized by the Superintendent of Schools/CEO or designate on the basis that no other option is feasible, the need is pressing and the privacy rights are outweighed. Surveillance of such locations must not be authorized on an ongoing basis.
- 1.7 All organizations that rent/occupy any part of the school property after hours must be advised that a recording CCTV system is in use and could potentially capture individuals' images.

2. Security

- 2.1 Video cameras will be installed only by a designated employee or service provider of the School District. Only designated employees/service providers and the building administrator will have access to the CCTV system. Only these employees can handle the camera or recorded images.
- 2.2 Only authorized persons will have access to the system's controls and recording equipment, and the Board will limit such access to those of its authorized personnel with a need to exercise such access. Video monitors will not be located in a position that will enable public viewing, and reasonable security measures will be in place to secure surveillance equipment from unauthorized access, loss, theft or tampering.
- 2.3 A log of all instances of access to and use of recording will be maintained.
- 2.4 When implementation of an overt surveillance system has been authorized, the Board will ensure that affected staff, students, volunteers and the public are notified of surveillance equipment locations. Notification will be by means of clearly worded signs, prominently displayed at the perimeter of the surveillance areas. Such signs will identify the purpose of the surveillance and contact information of the designated staff person who can answer questions about the surveillance system.
- 2.5 Recorded images will be stored in a secure location not normally accessible to students and the public, and can only be accessed by authorized personnel.
- 2.6 Recorded images must never be sold, publicly viewed or distributed except as provided under this policy or as permitted under the Freedom of Information and Protection of Privacy Act or other applicable laws.
