Thank-you very much!

I'm checking now to see if the health dangers of vaping and smoking cigarettes are included in any MANDATORY part of the BC public school physical and health curriculum:

You don't often get email from dbiz4u2@gmail.com. [Learn why this is important](#)

Are there any brochures/info sheets on the BC Lung Foundation website, specifically designed for teens and young adults, on the health dangers of vaping?

I did find this on the Canadian Cancer Society website:
