Peachland Elementary School Closure – Friday, November 28, 2014

Kelowna, B.C.

We received notification at 3:30 p.m. on Thursday, November 27th, that BC Hydro has a planned power outage scheduled for Peachland on Friday, November 28th between the hours of 10 a.m. and 6 p.m. (<http://www.peachland.ca/>). The weather forecast also indicates that temperatures are predicted to drop to -3c by the afternoon. Based on this information, we are asking parents of students at Peachland Elementary to make alternate arrangements for their children for Friday, November 28th.

Staff will be reporting to the school on Friday morning to deal with any families who did not receive information about the school closure. However, they will be attempting to reach parents to make alternate arrangements for all students.

Buses will run on the normal schedule in Peachland on Friday, November 28th, as all middle and secondary school students will still be transported to their schools.

We apologize for the late notification about this school closure, however, we were not advised of this situation until all students had left the school on Thursday.

Updates will be provided on our website: www.sd23.bc.ca.
