SD Board

At the school board meeting many months ago we were informed that the board meetings would be available to the public through Zoom. At the time we were told the reason that the school district could not put the meetings on zoom was because the microphones did not work properly.

At the September board meeting, new staff was introduced to the public. Troy White was introduced as the District Principal of Learning Technology Services. He stood in front of the crowd and said that he would get the microphones fixed so that Zoom meetings could happen. It is now February and I am having a hard time believing that microphones are still broken. There is a lot of money used for programs and services within the district - what about your chamber? As taxpayers and public individuals who voted the board in I feel that it is a slap in our face that zoom meetings are not made available to the public.

Was the decision changed?

Can you please let me know when I can enjoy these meetings on zoom if I am unable to attend in person?

Thank you

Brenda Gotte
