Spencer West "We Create Change" Tour

Kelowna, B.C. –

Mount Boucherie Secondary School is excited to be hosting the Spencer West "We Create Change" tour this Friday. Spencer West, a well-known humanitarian and activist, along with the band Neverest and a young 9 year old change maker, Hannah Alper, will be doing the final presentation of their 90 day cross Canada tour in the gym at Mount Boucherie Secondary School. Global Service students at Mount Boucherie, inspired by Me To We Day, decided to take on the fundraising for the building of a school house this year through Free The Children's Brick by Brick campaign working in conjunction with the UN Year of Education. The goal of \$10,000 has almost been reached, and students are looking forward to this presentation, as an inspirational culmination for all their hard work this year as they have raised money through a variety of school and community events. Eight Mount Boucherie students were a part of a Me to We trip to Kenya last summer, and what they saw there inspired them to be the leaders for this year-long campaign. All the westside elementary and middle schools have been asked to send students to be a part of this amazing West Kelowna community event.
